

IATF ON YOUR MISSION

Mixed Cities and Regions | Shared Society | Socio-Economic Development | Civil Society | Negev Bedouin | Government Budgets

Arab citizens and Jewish-Arab relations are among Israel's most consequential domestic priorities. IATF (Inter-Agency Task Force on Israeli Arab Issues) supports American Jewish organizations in making these issues a professional and informed part of their Israel engagement.

On your next mission, work with IATF content experts to make site-visits and meetings with leading changemakers and officials a powerful part of your organization's on-the-ground learning.

Make vital issues in Arab society and Jewish-Arab relations in Israel part of your next organizational mission.
